

Subrogation / I-Bond Sample Guidance

ClaimVoice sample/template — for general awareness and convenience

Before signing

Ask the insurer for its prescribed format, if one exists. Confirm the exact document name, the purpose for which it is required, the obligation created by signing it, and the supporting documents needed.

Sample clarification request

I have been asked to submit a subrogation / recovery document / indemnity undertaking for Claim No. _____. Please provide the prescribed format and confirm the purpose of the document, the obligation created by signing it, and any supporting documents required.

Plain-English explanation

Subrogation generally concerns recovery rights that may arise after an insurer pays a covered loss, subject to the policy and applicable law. An indemnity undertaking may create a separate promise or protection for the insurer in a particular situation. The exact legal effect depends on the wording and facts.

Do not sign a legal undertaking you do not understand. Ask the insurer for the official wording and obtain professional advice where appropriate.
